Nighttime Work to be Completed on Reservoir Street

Harrisonburg, Va. – The city of Harrisonburg’s Department of Public Works has rescheduled nighttime work to take place along Reservoir Street.

This work is part of the Reservoir Street improvement project.

On Tuesday, October 4, work will take place from 7:00 p.m. until 2:00 a.m. along Reservoir Street and will require temporary lane closures.

Signal pole masts are scheduled to be installed Tuesday night at the intersection of Reservoir Street and University Boulevard. When these mast arms are installed, traffic will be stopped for a short amount time while the mast arms are placed over the existing intersection.

Since traffic will be stopped, nighttime work is being done for this portion of the project to have the least amount of impact on the overall flow of traffic.

Additional information on the project can be found at www.HarrisonburgVA.gov/reservoir-street.

The anticipated completion date of this project is December 2017.

This schedule is subject to change due to weather conditions or unforeseen maintenance on equipment.

The Harrisonburg Public Works Department maintains more than 300 lane miles, 42.37 miles of public sidewalk, 250 miles of curb and gutter, and hundreds of acres of city right-of-way. The Department strives to ensure a safe, clean, and clear passageway for all vehicular and pedestrian traffic. More information about street and sidewalk maintenance is available at www.HarrisonburgVA.gov/public-works.
