April Paving Schedule

Harrisonburg, VA – The Public Works Department will soon begin its annual paving of roadways throughout Harrisonburg. This maintenance program resurfaces prioritized City streets based on the condition of the asphalt.

Crews will be milling and repaving the streets. The milling operation consists of removing approximately 1 ½ to two inches of old pavement and replacing it with new asphalt several days later.

While there are no anticipated street closures, there will be interruptions to the regular flow of traffic in the areas where milling and paving will be taking place. The area will be well-marked with signs to alert motorists.

The annual paving will begin April 3 and is anticipated to be complete by the beginning of November.

At the beginning of every month, a paving schedule will be distributed.
