Annual Paving Schedule

Harrisonburg, VA – The Public Works Department will soon begin its annual paving of roadways throughout Harrisonburg. This maintenance program resurfaces prioritized City streets based on the condition of the asphalt.

Crews will be milling and repaving the streets. The milling operation consists of removing approximately 1 ½ to two inches of old pavement and replacing it with new asphalt several days later.

While there are no anticipated street closures, there will be interruptions to the regular flow of traffic in the areas where milling and paving will be taking place. The area will be well-marked with signs to alert motorists.

The annual paving will begin March 31 and is anticipated to be complete by the fall.

Throughout the process, updated information will be distributed so members of the community are aware of the progress of this project. This information will be posted online at www.HarrisonburgVA.gov/paving-schedule.

In addition to the annual paving project, crews will also begin repairing potholes in roads throughout the city. The severity of this past winter season caused some deterioration of the roadways and spring provides an ideal time to make the necessary repairs.
