## Construction Moves Along in Downtown

Harrisonburg, VA – The Public Works Department and Falconer Construction, the selected general contractor, are moving right along with construction on Phase 2 of the Harrisonburg Streetscape Project.

For the past several weeks, crews have been working on the conduit and duct bank installation during nighttime hours.

Starting Monday, August 11, more work will take place during the daylight hours. Portions of the existing sidewalk will be demolished and new curb and gutter will be installed. This work will take place along the west side of Main Street from Bruce to Newman streets.

Night work will also continue next week to install the conduit and duct bank from Water Street to Court Square.

Signage will be posted as a reminder to pedestrians and motor vehicles. The daytime work will take place only on the west side of Main Street and pedestrians are asked to utilize sidewalks on the east side and the crosswalks at intersections.

Members of the community are encouraged to stay informed about this project by visiting [www.HarrisonburgVA.gov/downtown-streetscape-next-steps](http://www.HarrisonburgVA.gov/downtown-streetscape-next-steps).

It is anticipated that this safety improvement and beautification project will be complete by the end of 2014.
