Downtown Lane Closures Due to City Projects

Harrisonburg, VA – Two city projects will require lane closures in downtown Harrisonburg next week.

The City of Harrisonburg, in partnership with Falconer Construction, continues making progress with Phase 2 of the Harrisonburg Streetscape Project.

- Bruce Street, from Main Street to slightly east of the intersection, will remain closed;
- Water Street, from Main Street to just east of the intersection will be closed;
- The left lane of Main Street in front of City Hall will be closed.

Access to the parking lots on Water Street will remain open. The parking lot in the rear of the Hardesty-Higgins House will remain open and accessible from Franklin Street. Signs have been placed to assist in directing visitors to this public parking lot.

Construction on the new City Hall by Nielsen Builders will also impact Main Street. The left lane will be closed next week in order to stage semi trucks to offload concrete slabs with a crane.

The two work zones will be combined to extend south to just before City Hall to Court Square.

Please slow down and drive cautiously near these work zones. The areas will be well marked with signs to alert motorists. The City apologizes for any inconvenience this work may create and thanks everyone for their patience and cooperation.

Streetscape construction is still on track to be completed by December 2014 and the public is reminded that the businesses behind the construction barriers are still open and accessible!

Additional information on the Streetscape project is available at www.HarrisonburgVA.gov/Downtown-Streetscape-Next-Steps.

Additional information on the City Hall project is available at <http://www.harrisonburgva.gov/new-city-hall>.
