Rock Street Bridge Replacement Project Begins

Harrisonburg, VA – The Public Works Department is coordinating a project that will close a small portion of a downtown street for several months.

Starting Monday, April 6, West Rock Street, from North Liberty Street to the parking lot of the apartment complex located at 28 West Rock Street, will be closed until the beginning of September. This street closure will not affect accessibility into the apartment complex parking lot.

The construction will replace the 40 foot long steel beam and concrete deck that makes up the bridge and also includes new sidewalks, handrails, curb, and gutter.

While the Public Works Department will oversee the project, Hammond-Mitchell from Covington, VA is the selected general contractor for the work.

This project is estimated to cost \$495,000.

Construction updates and pictures will be posted to the City's [website](#) and [social media sites](#). Once the street reopens an announcement will be made.
