Annual Paving is Underway

Harrisonburg, Va. – The Harrisonburg Public Works Department has begun its annual paving of roadways throughout the city. This paving program prioritizes streets to be resurfaced based on the condition of the asphalt.

Adams Construction of Harrisonburg is the selected contractor who will be milling and repaving the streets. The milling operation consists of removing approximately 1 ½ to 2 inches of old pavement and replacing it with new asphalt several days later.

It is anticipated that there will be some interruptions to the regular flow of traffic where this paving operation will take place. Those interruptions will be appropriately marked with signs to alert motorists. Motorists are asked to use caution as they drive around crews working on this project.

The paving started this week and will be complete by the fall. In the next two weeks, crews will be paving portions of Vine St., Mason St., Hunters Road, Forest Hill Road and Circle Drive.

To view a complete list of streets that will be paved, visit www.HarrisonburgVA.gov/paving-schedule.

In addition to the paving project, potholes in the roadways across the city will also be repaired throughout the spring and summer seasons.

This schedule can be subject to change due to weather conditions and unforeseen maintenance on equipment.
