## Water Main Repaired

Harrisonburg, Va. – The Public Utilities Department has completed all of the repairs to a broken water main.

Earlier this morning crews began work at the intersection of Neyland Drive and Chestnut Drive to repair a water main.

Work was completed around 1:45 p.m. today and crews used a repair band to fix the broken section of pipe. It is unknown exactly what caused the pipe to rupture.

Customers should no longer be experiencing an interruption in water service. Customers could still temporarily see discolored water, which is common after work takes place.

Anyone with questions may contact the Public Utilities Department at 540-434-9959. Be sure to follow the city’s [Facebook](#) and [Twitter](#) sites for project updates.

*The **Harrisonburg Department of Public Utilities** is responsible for providing water and sewer services to residences and businesses. The Department currently manages approximately 16,000 accounts. For more information about these functions of the city, visit [www.harrisonburgva.gov/public-utilities](http://www.harrisonburgva.gov/public-utilities).*
