Valve Repair Work Postponed

Harrisonburg, Va. – The city's Public Utilities Department has postponed work that will repair a valve along Main Street.

Originally, the work was scheduled to take place tomorrow, December 29. Due to the anticipated rain, the work will be postponed and take place on **Thursday, December 31 starting at 8:00 a.m.**

On Thursday, crews will repair a valve at the intersection of South Main Street and Bluestone Drive.

While the work is taking place, some customers along South Main Street, from Maplehurst Avenue to Warsaw Avenue (highlighted in the red box in the map below), may experience a temporary interruption in their water service.

Work will be taking place in the right hand, northbound lane of South Main Street at the intersection with Bluestone Drive. Northbound traffic on South Main Street will be reduced to one lane. Bluestone Drive will be closed at the intersection to traffic entering and exiting on to South Main Street.

It is anticipated that work will be completed by 3:30 p.m. on Thursday, December 31.

This schedule can be subject to change due to weather conditions and unforeseen maintenance on equipment.
