Signal Work Causes a Temporary Change in Traffic Pattern

Harrisonburg, Va. – The city of Harrisonburg’s Public Works Department will be coordinating work on a traffic signal next week that will cause a temporary interruption in a traffic pattern along Main Street.

On Sunday, July 10 starting at 9:00 p.m. crews will be working on the signal at the intersection of South Main Street and Grace Street. The work will be done overnight and is expected to be completed by 5:00 a.m. on Monday, July 11.

A temporary traffic pattern during the designated hours will be as follows:

- Southbound and northbound traffic on Main Street will be able to proceed through the intersection with no left or right turns onto Grace Street.
- Eastbound traffic on West Grace Street will only be able to turn right on to South Main Street.
- East Grace Street, from South Main Street to Mason Street, will be closed. Access to buildings along this section of East Grace Street will be allowed from Mason Street.

Traffic cones and signage will be set up starting at 7:00 p.m. on Sunday, July 10.

This schedule is subject to change due to weather conditions or unforeseen maintenance on equipment.

The Harrisonburg Public Works Department maintains more than 300 lane miles, 42.37 miles of public sidewalk, 250 miles of curb and gutter, and hundreds of acres of city right-of-way. The Department strives to ensure a safe, clean, and clear passageway for all vehicular and pedestrian traffic. More information about street and sidewalk maintenance is available at www.HarrisonburgVA.gov/public-works.
