City Prepared for Winter Precipitation

Harrisonburg, Va. – The city of Harrisonburg is prepared for the potential of winter precipitation moving through the area tonight.

The city’s Public Works Department will have staff working overnight and into tomorrow morning to ensure the roads are clear and to treat slick areas as needed.

Motorists are encouraged to allow for extra time for their morning commute, increase their travel distance between other vehicles, and use caution when driving.

Pre-treatment on the roadways will not be used during this storm. Rain is predicted to arrive first, which would wash away any pre-treatment that was applied to the surface of the roadways.

Additional winter safety tips are available at www.HarrisonburgVA.gov/winter-safety.

For additional information on the city’s snow and ice program, visit www.HarrisonburgVA.gov/snow-plow.

The Harrisonburg Public Works Department maintains more than 300 lane miles, 42.37 miles of public sidewalk, 250 miles of curb and gutter, and hundreds of acres of city right-of-way. The Department strives to ensure a safe, clean, and clear passageway for all vehicular and pedestrian traffic. More information about street and sidewalk maintenance is available at www.HarrisonburgVA.gov/public-works.
