Paving Operations Begin along Reservoir Street

Harrisonburg, Va. – The city of Harrisonburg’s Public Works Department continues making progress on the Reservoir Street improvement project.

Beginning on April 3 and continuing all month, crews will be milling and paving Reservoir Street, from Evelyn Byrd to Neff avenues. The paving operations will take place overnight, Monday through Thursday nights, to impact the least amount of traffic.

Throughout the month of April, the contractor will also be completing the curb and gutter along Neff Avenue and the curb, gutter, and sidewalk on the west side of Reservoir Street, from Lucy to Stonewall drives. This work will take place during the day.

Motorists can expect to see flagging operations on a daily basis throughout the project area during the month of April and are encouraged to be alert and slow down when driving through the work zone.

The Reservoir Street improvement project will widen Reservoir Street from the city limits to University Boulevard and is expected to be complete by December 2017.

Additional information about this project is available at www.HarrisonburgVA.gov/reservoir-street.

The Harrisonburg Public Works Department maintains more than 300 lane miles, 42.37 miles of public sidewalk, 250 miles of curb and gutter, and hundreds of acres of city right-of-way. The Department strives to ensure a safe, clean, and clear passageway for all vehicular and pedestrian traffic. More information about street and sidewalk maintenance is available at www.HarrisonburgVA.gov/public-works.
