## Work on City Sewer Causes Change in Traffic Pattern

Harrisonburg, Va. – The city of Harrisonburg’s Public Utilities Department will work on the public sewer lines this week.

On Wednesday, June 27, starting at 5:00 a.m., crews will begin working along South High Street to repair a sewer main. Traffic traveling northbound on South High Street, from South Avenue to Logan Lane, will be shifted to the center turn lane. Crews will be working in both northbound lanes to make the necessary repairs.

Field crews with the Public Utilities Department have a preventative maintenance schedule, where a robot with a camera is used to check the city’s underground sewer infrastructure. The repairs needed in this area were discovered through this process.

It is anticipated that this work will be completed at the end of the day on Wednesday, June 27.

Motorists are encouraged to use caution in this area and be mindful of the crews working in and around the roadway.

This work was originally scheduled for April and was rescheduled due to the weather conditions. The work on Wednesday, June 27 will be conducted rain or shine.

*The City of Harrisonburg is centrally located in the Shenandoah Valley of Virginia. It is home to almost 55,000 people. More information about the City of Harrisonburg is online at [www.HarrisonburgVA.gov](http://www.HarrisonburgVA.gov).*
