Crews Repairing Water Main Break

Harrisonburg, Va. – The Public Utilities Department has responded to and is working to repair a water main break this afternoon.

City crews are responding to University Boulevard to repair a water main break. Public Utilities staff are currently on site and evaluating the magnitude of the break. Provisions are being installed to ensure service is restored to all customers, with an expectation that service will be restored between 7:00PM and 10:00PM this evening.

Residents in this area may experience a continued interruption in water service during the repair. Once the repair has been completed, customers may temporarily see discolored water, which is common after work takes place.

Motorists are encouraged to use caution in this area and slow down when passing the crews working alongside the road.

Anyone with questions may contact the Public Utilities Department at 540-434-9959.

*The **Harrisonburg Department of Public Utilities** is responsible for providing water and sewer services to residences and businesses. The Department currently manages approximately 16,000 accounts. For more information about these functions of the city, visit www.harrisonburgva.gov/public-utilities.*
