URBAN WATER QUALITY WORKSHOP

Tuesday November 1, 2011

9:00am–12:00pm

Followed by a complimentary lunch and optional tour of
JMU stormwater management projects

Urban stormwater pollution harms our rivers, lakes, and streams, but local efforts in Harrisonburg and Rockingham County can make a difference. Take the opportunity to participate in dialogue about water quality in our community. Discussions will focus on stormwater management techniques, urban landscape management practices, and the connection of these practices to water quality.

Highlands Room, Festival Conference Center, James Madison University

1301 Carrier Drive Harrisonburg, VA 22807

Please RSVP at www.CleanStream.org. Or by phone to (540) 434-5928 by October 24, 2011.

No cost to register!

Virginia Nutrient Management Continuing Education Credits Available.

Certificates documenting attendance and number of attending hours for other licensing or certification programs will also be available upon request.
