Thursday, April 17th, 2014 at 6:00pm

Rain Barrel Workshops

Location: Community Activities Center at Westover Park

305 S. Dogwood Dr.

Why Rain Barrels? Rain Barrels can be attached to downspouts to capture roof runoff. The water stored in the rain barrel can be used to water gardens or lawns. Rain barrels can also help control stormwater runoff, which can cause erosion and degrades our streams.

Benefits. Although rain barrels are available at garden stores, they are not cheap! During the workshop, you will convert a heavy plastic pickle barrel into a functional rain barrel. In addition to learning how to install and maintain your rain barrel, you will learn about your role in water conservation and water quality protection. Learn how you impact our local waterways. A recycled barrel, tools and supplies will be provided.

How do I sign up? Send the attached Registration Form to c/o Chris Mueller, City of Harrisonburg, 320 East Mosby Road, Harrisonburg, VA 22801, along with a check made payable to **City of Harrisonburg** for \$40 (one barrel) or \$80 (two barrels) by Tuesday, April 8, 2014. Questions? Call 540-434-5928 or send an email to chris.mueller@harrisonburgva.gov. Limited enrollment — sign up today!
