Introduction

The Comprehensive Plan sets out an agenda for City improvement and progress toward realizing its vision for the future. Many community members tend to think that the City government alone is responsible for implementing the Comprehensive Plan. However, implementation success will depend greatly on partnerships between multiple entities that might include the City, other local, state, and federal agencies, local businesses, the development community, faith-based and community organizations, and individuals. Many issues can only be resolved comprehensively and successfully on a regional basis, so collaboration with Rockingham County is essential. Key internal institutions with which the City hopes to continue collaborating with include: James Madison University, Eastern Mennonite University, and Sentara RMH Medical Center. As the following Goal 2 shows, there are many areas where these institutions can collaborate with the City besides just the areas of education and health.

The Vision Statement in Chapter 2 presents a future City that is a great place to live, to raise a family, to work and to prosper. But note that the vision statement also contains another key idea – a City where community members are inspired to work together. Goal 3 supports efforts to engender civic pride, and to encourage all community members to participate in planning for the City and working toward the vision. Generally, this goal is working toward establishing community engagement, where the entire community is involved in local efforts and activities. This requires efforts to make tools and resources available to all residents to be able to communicate effectively with the City, other local, state, and federal agencies, and community organizations.
