News Release

Title: HPD's Appreciation to Community

March 6, 2013

The members of the Harrisonburg Police Department wanted to express our appreciation for the community's adherence of the request for citizens to stay off the roadways to allow the City's Road Crews in clearing off the roadways.

The Department has responded to some accidents but far less than the numbers could have been in the heavy snow that affected our City. This allows our officers to be available for other types of emergencies that officers need to be available to respond to.

The Department is requesting that citizens continue to refrain from getting on the roadways. This will allow crews to plow and create safe streets for future travel.

Chief Stephen Monticelli
