## Buzzed Driving Is Drunk Driving

Harrisonburg, VA – The Harrisonburg Police Department (HPD) will be conducting sobriety checkpoints across the city on June 23, 2017.

HPD sobriety checkpoints are part of a comprehensive impaired driving enforcement program. The purpose of the sobriety checkpoint is to reduce the number of people operating motor vehicles under the influence of alcohol and other illegal substances.

If you drive into a checkpoint, please have your driver's license ready and follow the instructions given by officers on the scene.

HPD encourages individuals to designate a sober driver or hire a driver to get to and from your destinations safely.

The Harrisonburg Police Department wishes the community a safe summer! Additional information is available at [www.HarrisonburgVA.gov/police](http://www.HarrisonburgVA.gov/police).
