A: Contact **Lee Foerster** (Parks & Recreation) at **540-433-9168**, to schedule a time.

Q: Can the concrete pad be poured first (bullpen area), then the post holes core drilled (and grouted) after?

A: With the fence posts located close to the edge of the slab, the Engineer is concerned for the integrity of the slab edges and corners in such a method, and therefore **rejects** this as a substitute method for installing the posts prior to pouring the slab as indicated on the drawings.

Q: Is there additional compensation for dealing with the underlying rock conditions?

A: Soil and rock conditions are considered **unclassified**. Section 02711 of the Project Manual clearly states that **it is the Contractor's responsibility to remedy difficult conditions as necessary for fence installations.**
