

ADDENDUM #1
ITB/RFP NUMBER: 2016022-PW-B
Reservoir Street Project ITB

DATE: December 18, 2015

TO: All Potential Bidders/Offerors

City of Harrisonburg's Reservoir Street Project ITB, is modified as follows:

It was reported on December 17, 2015 that two (2) of the plan documents were not able to be downloaded properly from the eVA website (www.eva.virginia.gov). The issue was promptly remedied on that date and all documents should now be accessible on the eVA website. In the process of resolving the issue, eVA may have sent out notifications to vendors through their website on December 17, 2015.

1. Question: Is there a published Engineer's Estimate (range) for this project?

Answer: Per Code of Virginia 2.2-4342 B, the City will not be providing a cost estimate for this project.

2. Is utility locating part of this project? Does Harrisonburg public works mark its own utilities or dig test pits at all?

Answer: On Sheet 2, Note 4. of the plans, "The location of existing utilities as shown is approximate only. The contractor is responsible for locating all public or private utilities that lie in or adjacent to the construction site. The contractor shall be responsible for repairing, at his expense, all existing utilities damaged during construction. Forty-eight (48) hours prior to any excavation call Miss Utility 1-800-552-7001." The City of Harrisonburg does provide water and sanitary sewer locating services and will be marking those lines when a Miss Utility ticket is called in. However, the City will not be digging any test pits. Any digging of test pits will be the contractor's responsibility.

All other requirements, terms and conditions of the ITB/RFP remain unchanged.
