

ADDENDUM #2
ITB/RFP NUMBER: 2016037-PU-B
Water Treatment Chemicals ITB

DATE: April 18, 2016

TO: All Potential Bidders/Offerors

City of Harrisonburg's Water Treatment Chemicals ITB, is modified as follows:

1. Question: Can you please advise load size for Hydrofluorosilicic Acid, page 2, under 3.0 Specifications, 3.1 products and Estimated Annual Usage. In reference to your Water Treatment Chemical Bid, the bid mentions full capacity deliveries. Does this refer to 45,000 pound deliveries, and if not what is the needed truckload delivery volume? This would be for hydrofluosilicic Acid.

Answer: Clarification to Answer #4 from Addendum #1: Quantities for estimated annual usage are in the bid form. City desires to minimize truck loads; therefore only by exception, deliveries should be no less than 4,000 gallons for all chemicals.

All other requirements, terms and conditions of the ITB/RFP remain unchanged.

Addendum page must be signed and returned with your bid/proposal to acknowledge receipt of this addendum.
