

ADDENDUM #1
ITB/RFP NUMBER: 2017019-PU-P
On-Call Consulting Engineering Firms RFP

DATE: July 28, 2016

TO: All Potential Bidders/Offerors

City of Harrisonburg's On-Call Consulting Engineering Firms RFP, is modified as follows:

1. Question: Section 3.0 Scope of Services, Group #1 Water System Planning and Analysis states, "The City requires engineering planning and analysis, supported by computerized hydraulic modeling using the City's existing system model in the Bentley Water-CAD format." Does the analysis need to be performed with Bentley's Water-CAD software or are other water system analysis programs acceptable so long as they import and export Water-CAD formatted files?

Answer: No. The City maintains a computerized hydraulic model in Bentley's WaterCAD software and will not accept other software. Staff is concerned for the labor and formatting lost in the transition between softwares. Proposals shall only include the latest version of Bentley's WaterCAD software.

All other requirements, terms and conditions of the ITB/RFP remain unchanged.

Addendum page must be signed and returned with your bid/proposal to acknowledge receipt of this addendum.
