1.0 INTRODUCTION

The purpose of this Request for Qualifications (RFQ) by the City of Harrisonburg, Virginia (City) is to solicit Statements of Qualifications (SOQs) from interested vendors (Offeror) to serve as the Design-Builder for the Harrisonburg Public Works Administration Building Project. The purpose of this RFQ is to solicit information that will enable the City to determine which Offerors: (a) are best qualified to successfully execute the design and construction of the Project; and (b) will be invited to submit proposals in response to the City's Request for Proposals (RFP).

Offeror's SOQs must meet all requirements established by this RFQ. Requirements of this RFQ generally will use the words "shall", "will", or "must" (or equivalent terms) to identify a required item that must be submitted with an Offeror's SOQ. Failure to meet an RFQ requirement may render an Offeror's SOQ non-responsive while the extent to which an Offeror meets or exceeds evaluation criteria will be rated by the Evaluation Committee and be reflective of the Evaluation Committee's scoring of Offeror's SOQs.

Offerors shall take note that the RFQ is being provided for information purposes only. All documents included therein are subject to change; therefore, these documents shall not be relied upon for the purposes of developing a Proposal.

1.1.CITY'S DESIGN-BUILD PROCUREMENT PROCESS

This RFQ is being issued in accordance with Virginia Code 2.2, Chapter 43.1 and with the City of Harrisonburg's Design-Build Procedures as adopted by Resolution from the Harrisonburg City Council effective January 1, 2022.

The City of Harrisonburg will use a two-phased selection process for the selection of a Design-Builder for the Project. This RFQ represents the first phase in the selection process, during which Offerors will submit Statements of Qualifications for the project. Upon completion of this Step 1, the City intends to short-list at least two (2) Offerors. Only the short-listed Offerors will receive the Request for Proposal (RFP) and be allowed to submit a proposal. In the event the SOQs of fewer than two (2) Offerors are determined to be responsive, then the City reserves the right to not proceed to Step 2 of the D-B process.

Step 2 of the selection process will entail the submission of two (2) separately-sealed parts: a Technical Proposal and a Cost Proposal from each short-listed Offerors. While the RFP will contain specific requirements for the separately-sealed Technical and Sealed Cost Proposals, as well as specific selection criteria, the City anticipates that: (a) Technical Proposals will include, among other things, the Offeror's design/conceptual plans and a Project schedule; and (b) Cost Proposals will include, among other things, the fixed price for the design and construction of the Project. The City further anticipates that upon completion of the evaluations of the separately-sealed Technical and Cost Proposals, the City will recommend the top-ranked Offeror for an award of a fixed price design-build contract.

Offerors are on notice that the City may negotiate and award a design-build contract to an Offeror if, upon a written determination, the City determines that such Offeror is the only Offeror fully qualified to perform the proposed design-build contract, or that such Offeror is clearly more highly qualified than the others under consideration.

2.0 BACKGROUND

The City wishes to construct a New Public Works Administration Building (“Building”) to be located at the current office location of 320 E. Mosby Road, Harrisonburg, VA 22801. The Building shall be constructed of durable long-lasting materials, and the City has no preference on the type of construction material; with the main requirements being durability, sustainability, and cost effectiveness. The Building shall include waiting areas, general office spaces (both traditional offices and cubicle workspaces), large and small conference rooms, storage and office space for Harrisonburg Fire Department operational materials, and a Harrisonburg Police Department substation that will include offices and break area. The Building shall include solar panels installed on the roof of the structure, and the panels shall be sized to maximize the amount of renewable energy produced to offset traditional electric consumption.

The proposed location of the Building is located within the 100-year flood plain; however, Public Works believes that the Building can be placed one (1) foot above the Base Flood Elevation (BFE) in the proposed location.

Following construction of the Building, the existing Public Works Administration building will be demolished and a new parking lot will be constructed in its place.

During the construction of the Building, Public Works will remain in full operation and the contractor will be required to coordinate all construction activities with Public Works leadership.

3.0 SCOPE OF WORK

The management, design, and construction services will be performed as a single contract with one entity identified as the Team. Services will include all necessary tasks/activities to manage, design, and construct the project, including but not limited to: project planning, permits, fees, inspections, bonding, engineering, and construction services to deliver a complete, usable, and fully-operational building.

The RFQ phase of the procurement process is intended to enable Offerors to demonstrate their qualifications to perform the Project, and to enable the City of Harrisonburg to evaluate those qualifications in arriving at a short-list. Offerors are advised that the SOQ should include specific information that will demonstrate the qualifications and experience required by this RFQ. Offerors should note that it is not the intent of the City to receive Project-specific design or engineering recommendations as part of this RFQ. The SOQ shall include all information required under this Section. Offerors shall be aware that the City reserves the right to conduct an independent investigation of any information, including prior experience, identified in a Statement of Qualifications by contacting project references, accessing public information, contacting independent parties, or any other means. The City also reserves the right to request additional information from an Offeror during the evaluation of that Offeror’s SOQ.

3.1.ANTICIPATED PROJECT SCOPE

Offeror shall provide all plant, labor, superintendence, materials, tools, equipment, supplies, incidentals, and other ancillary items necessary, for complete turnkey development of the New Public Works Administration Building and site preparation to include design and construction of Building, but not limited to:

- Provide all design, engineering, and planning related to the construction of the Building.
- Environmental studies and permits, as needed

- Any additional engineering studies, as needed
- Bonding and permitting, including any fees
- Provide documentation and manuals per specifications
- Provide a detailed Statement of Work (SOW) after the successful offeror has been selected, which will be included in the final contract.
- Provide coordination between the City, subcontractors, and other stakeholders to assure a quality project, timely delivery, safe implementation and to ensure that all contractual and warranty commitments are fulfilled.

3.2.OFFEROR’S QUALIFICATIONS & TEAM STRUCTURE

The Offeror should provide sufficient information to enable the City to understand and evaluate the Offeror’s Team. In accordance with the City’s Design-Build Procedures, all Offerors must have a licensed Class “A” contractor and an Architect or Engineer registered in the Commonwealth of Virginia as a part of their Project Team.

Functioning as an integral member of the project that will include representatives from the City of Harrisonburg and other consultants as required, it will be the responsibility of the awarded Team to integrate the management, design, and construction phases, utilizing skills and knowledge of design and general contracting to provide design, code analysis, value engineering and constructability reviews, develop schedules; prepare detailed project construction estimates; study labor conditions; and, in any other way deemed necessary, to contribute to the development of the Project during the pre-construction/design phase. The Team assumes design and construction risk and has direct authority over the subconsultants and subcontractors and is responsible for construction means and methods.

The Offeror should respond to the following requirements in their Statement of Qualification Submittal:

- 3.2.1. Provide the identity of and information about the Key Personnel listed below. A narrative description should be included for each project. The description shall include only one singular project. Projects/contracts with multiple phases, segments, elements (projects), and/or contracts shall not be considered a single project. If the Offeror chooses to submit work performed as a Joint Venture or Partnership, identify how the Joint Venture or Partnership was structured and provide a description of the portion of the work performed only by the Offeror's firm. Any deviations from the requirements noted herein may render a SOQ non-responsive.

3.4.REQUIREMENT TO KEEP TEAM INTACT

The team proposed by Offeror, including but not limited to the Offeror's organizational structure, Lead Contractor, the Lead Designer, Key Personnel, Sub-Contractor and/or Sub- Consultant and other individuals identified pursuant to Section 3.2 above, shall remain on the Offeror's team for the duration of the procurement process and, if the Offeror is awarded the Design-Build Contract, the duration of the Design-Build Contract. The Offeror shall not change or substitute any Key Personnel except due to voluntary or involuntary termination of employment, retirement, death, disability, incapacity, or as otherwise approved by the City. Any proposed change of Key Personnel must be submitted in writing to the City's Contract Administrator, who will determine whether to authorize a change. Unauthorized changes to the Offeror's team at any time during the procurement process may result in the elimination of the Offeror from further consideration. Job duties and responsibilities of Key Personnel shall not be delegated to others for the duration of the Contract.

3.5.OFFEROR'S SCOPE OF WORK

The Scope of Work to be undertaken by the Design-Builder under the design-build contract for this Project will be identified in the RFP. This work includes, among other matters, all work required to support the design and construction of the New Public Works Administration Building.

Describe the role that the Offeror expects the City or other agencies may have in addressing these Project risks. Each risk identified should be a unique, singular risk and should not include multiple subsets under a risk category. If subsets of a critical risk are provided, only the first risk subset will be evaluated.

MODIFICATION & WITHDRAWAL OF BIDS/PROPOSALS: 2.2-4330

1. A bidder for a public construction contract, other than a contract for construction or maintenance of public highways, may withdraw his bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake in the bid, provided the bid was submitted in good faith, and the mistake was a clerical mistake as opposed to a judgment mistake, and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn.

If a bid contains both clerical and judgment mistakes, a bidder may withdraw his bid from consideration if the price bid would have been substantially lower than the other bids due solely to the clerical mistake, that was an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid that shall be clearly shown by objective evidence drawn from inspection of original work papers, documents and materials used in the preparation of the bid sought to be withdrawn.

2. The bidder shall give notice in writing of his claim of right to withdraw his bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice.
3. No bid shall be withdrawn under this section when the result would be the awarding of the contract on another bid of the same bidder or of another bidder in which the ownership of the withdrawing bidder is more than five percent.
4. If a bid is withdrawn in accordance with this section, the lowest remaining bid shall be deemed to be the low bid.
5. No bidder who is permitted to withdraw a bid shall, for compensation, supply any material or labor to or perform any subcontract or other work agreement for the person or firm to whom the contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.
6. The public body shall notify the bidder in writing within five business days of its decision regarding the bidder's request to withdraw its bid. If the public body denies the withdrawal of a bid under the provisions of this section, it shall state in such notice the reasons for its decision and award the contract to such bidder at the bid price, provided such bidder is a responsible and responsive bidder. At the same time that the notice is provided, the public body shall return all work papers and copies thereof that have been submitted by the bidder.
7. These procedures also apply for the withdrawal of bids for other than construction contracts.

8. A bidder/offeror may modify or withdraw his bid/proposal, either personally or by written request to the Purchasing office at any time prior to the scheduled time for opening of bids/proposals.

PAYMENT: 2.2-4352 – 2.2-4354

1. To Prime Contractor:

Invoices for items ordered, delivered and accepted shall be submitted by the contractor directly to the payment address shown on the purchase order/contract. Any payment terms requiring payment in less than 45 days will be regarded as requiring payment 45 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 45 days, however. All goods or services provided under this contract or purchase order, that are to be paid for with public funds, shall be billed by the contractor at the contract price.

The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act. Individual contractors shall provide their social security numbers, and proprietors, partnerships, and corporations shall provide the City with a federal employer identification number, prior to receiving any payment from the City. The City requires an updated IRS Form W-9 be filed with the Purchasing Office at or before the contract is signed.

Unreasonable Charges: Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the City shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification.

The provisions of this section do not relieve the City of its prompt payment obligations with respect to those charges which are not in dispute (**2.2.4363**).

2. To Subcontractors:

A contractor awarded a contract under this solicitation is hereby obligated to pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the City for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or;

Notify the City and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason.

The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the City, except for amounts withheld as stated in (2) above. The date of mailing of any payment by U. S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the City. Any such contract awarded shall further require the contractor to include in each of its subcontracts a provision requiring each subcontractor to include or otherwise be subject to the same payment and interest requirements with respect to each lower-tier subcontractor. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the City.

SAFETY and OSHA STANDARDS: All parties performing services for the City shall comply with all Occupational Safety and Health Administration (OSHA), State Occupational Health Standards, and any other applicable rules and regulations. All parties shall be held responsible for the training, supervision, and safety of their employees. Any unsafe acts or hazardous conditions that may cause injury or damage to any persons or property within and around the work site areas under this contract shall be remedied per the regulatory agency's guidelines.

TERMINATION: Subject to the provisions below, the contract may be terminated by the City upon thirty (30) days advance written notice to the other party. Any contract cancellation notice shall not relieve the contractor of the obligation to deliver and perform on all outstanding orders issued prior to the effective date of cancellation.

1. **Termination for Convenience:** In the event that the contract is terminated upon request and for the convenience of the City, without the required thirty (30) days advance notice, then the City shall be responsible for payment of services up to the termination date.
2. **Termination for Cause:** Termination by the City for cause, default or negligence on the part of the contractor shall be excluded from the foregoing provision; termination costs, if any shall not apply. However, the City may hold the contractor responsible for any resulting additional purchase and administrative costs. The thirty (30) day advance notice requirement is waived in the event of Termination for Cause.
3. **Termination Due to Unavailability of Funds:** Agreements are made subject to the appropriation of funds (including grant funds, gifts or donations) by the Harrisonburg City Council and are null and void in the event of non-appropriation by the City Council. Non-appropriation of funds shall not be deemed a cancellation and shall terminate this agreement without recourse and with no liability on the part of the City.

SPECIFICATIONS

CONDITION OF ITEMS: Unless otherwise specified in the solicitation, all items shall be new, latest edition/model in first class condition.

FORMAL SPECIFICATIONS: When a solicitation contains a specification which states no substitutes, no deviation therefrom will be permitted and the bidder will be required to furnish articles in conformity with that specification.

USE OF BRAND NAMES: 2.2-4315 Unless otherwise provided in this solicitation, the name of a certain brand, make or manufacturer does not restrict bidders/offerors to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the public body, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The bidder/offeror is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable the City to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Normally in competitive sealed bidding only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. Unless the bidder/offeror clearly indicates in its bid/proposal that the product offered is an "equal" product, such bid/proposal will be considered to offer the brand name product referenced in the solicitation. The City reserves the right to determine the suitability of substituted items for those specified and to accept in whole or in part any and all bids/proposals received.

DELIVERY

DEFECTS OR IMPROPRIETIES: In instances where there is a defect or impropriety in an invoice or in the goods or services received, the City shall notify the supplier of the defect or impropriety, if the defect or impropriety would prevent payment by the payment date. The notice shall be sent within (30) thirty days after receipt of the invoice or the goods or services.

TESTING AND INSPECTION: 2.2-4302.1 The City reserves the right to conduct any test/inspection it may deem advisable to assure goods and services conform to the specifications. Materials or components that have been rejected by the City, in accordance with the terms of the contract, shall be replaced by the Contractor at no cost to the City.

TRANSPORTATION AND PACKAGING: All materials shipped to the City must be shipped Free On Board (FOB) Destination unless otherwise stated in the contract. By submitting their bids/proposals, all bidders/offerors certify and warrant that the price offered for FOB destination includes only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped. Except as otherwise specified herein, standard commercial packaging, packing and shipping containers shall be used. All shipping containers shall be legibly marked or labeled on the outside with purchase order number, commodity description, and quantity.
