City’s Public Utilities Department conducting annual testing of sewer system

HARRISONBURG, Va. – The City of Harrisonburg’s Public Utilities Department is conducting its annual testing of the sanitary sewer system.

The effort involves release of a non-toxic and non-staining test smoke into area manholes, which will travel through the sanitary sewer system. The purpose of this testing is to detect any breaks or leaks in the City’s system so appropriate repairs can be made if necessary.

Testing begins this week and will run through November. Community members may notice smoke rising from manhole covers, yards where systems run, or even from their bathtubs, toilets or sinks.

This year’s testing will take place in the following areas:

3rd Street
4th Street
5th Street
Ashby Avenue
Broad Street
Chloe Lane
Commerce Drive
Commercial Court
Edom Road
Effinger Street
Elon Rhodes Lane
Gay Street (East)
Harris Street
Hearthstone Lane
Jackson Street
Jefferson Street
Johnson Street (East)

Johnson Street (West)
Kates Lane
Kelley Lane
Kelley Street
Kratzer Avenue
Leslie Court
Liberty Street (North)
Lincoln Circle
Longview Drive
Madison Street
Main Street (North)
Mason Street (North)
Massanutten Street
Monroe Street
Moore Street
Myrtle Street

Noll Drive
Northfield Court
Northglen Lane
Oak View Court
Old Furnace Road
Simms Avenue
Sophie Drive
Sterling Street
Stonefield Court
Sumter Court
Tower Street
Viewmont Court
Vine Street
Virginia Avenue
Washington Street (East)
Washington Street (West)

(Above) This graphic shows how the annual testing works, and where community members may notice some smoke. Testing begins on Monday, Sept. 22.

These businesses and organizations also will see smoke testing in the area:

- Georges Foods, 501 N. Liberty St.
- Harrisonburg Public Transportation, 475 E. Washington St.
- Harrisonburg Redevelopment & Housing Authority, 286 Kelley St.
- Lucy Simms Continuing Education Center, 620 Simms Ave.
- Pleasant View, 151 Commerce Drive
- Rockingham County Government Center, 20 E. Gay St.
- Shenandoah Valley Organics, 862 N. Liberty St.

The city has a total of 190 miles of sewer lines and a section of those lines are tested each year. Some smoke will be seen being released from rooftop plumbing vents, which is an indication of a properly installed plumbing system.

Tips for community members:

- Pour one gallon of water into the drain traps of floors, sinks, showers and tubs, which will prevent sewer gases or smoke from entering a home or business.
- If the non-toxic smoke enters a residence or business, this is a sign of a defect in the plumbing. When this occurs, there is no need to contact emergency services. Open a window or door for ventilation, note the location of the smoke and contact a qualified plumber.
- Anyone with respiratory or cardiovascular conditions should not stay in a building where smoke has entered as a precautionary measure.

Anyone with questions may contact the Public Utilities Department at 540-434-9959.

The City of Harrisonburg is centrally located in the Shenandoah Valley of Virginia. It is home to approximately 56,879 people. More information about the City of Harrisonburg is available online at www.HarrisonburgVA.gov.
