

## Preferred Concept for Improvements

- Replace existing span-wire signal at the intersection of Reservoir Street and Martin Luther King Jr. Way. Install new signal pole foundations and mast arms.
- Reconfigure existing sidewalks and curb ramps and install pedestrian signal poles at the intersection of Reservoir Street and Martin Luther King Jr. Way.
- Install new high-visibility crosswalk across Reservoir Street at the south leg of the intersection of Reservoir Street and Martin Luther King Jr. Way.
- Reconfigure existing Martin Luther King Jr. Way roadway between Reservoir Street and East Market Street. The road will be one lane in each direction with a two-way left turn lane installed.
- Install new buffered 6' sidewalk on the south side of Martin Luther King Jr. Way roadway between Reservoir Street and East Market Street.
- Replace bus pad/shelter at the East Market Street at Cloverleaf Shopping Center bus stop.
- Replace existing 10' sidewalk along East Market Street with 10' shared-use path, on the west side of East Market Street between Carlton Street and Martin Luther King Jr. Way.
- The funded shared-use path along the west side of East Market Street extending south past the intersection of East Market Street and Martin Luther King Jr. Way is currently under construction.
