	Existing Shared Use Path Under Construction		

Project Description

This project includes extending the shared use path currently under construction along East Market Street to the intersection with Carlton Street and constructing sidewalk along Martin Luther King Jr. Way to connect the shared use path to existing pedestrian facilities at the intersection of Reservoir Street. This segment is expected to modify the existing lane configuration to reconfigure the southernmost travel lane to create space for a wide sidewalk.

Route 33 & Martin Luther King Jr Way Shared Use Path
Harrisonburg, Virginia
